Testimony on House Bill #HB3062

Xavier Cardenas, Parkrose High School Student

House Committee On emergency Management, General Government, and Veterans
2/10/25

I'm a student at Parkrose High School and I urge you to support HB3062's movement out of committee and vote YES when it gets to the floor.

I feel like all communities deserve access to clean air, no matter if communities have a school or not. Because according to the CDC 377,851 of adults and children in Oregon have asthma, that's a total of 11.2%, I feel like the new truck warehouse would drastically increase those numbers to others that live near or go to the Parkrose High School, affecting more adults and children to develop asthma or develop breathing problems.

I also feel like if the House of Representatives were to let the Healthy Communities Act Pass, it could help communities in Portland and in Oregon to breathe clean air.

I think raising awareness to support the Healthy Communities Act and getting your help to let the Act pass can really help people with and without breathing problems finally breathe clean air.

Thank you for taking the time out of your day to read this letter
