

Submitter: Vanessa Tellez

On Behalf Of:

Committee: House Committee On Emergency Management, General Government, and Veterans

Measure, Appointment or Topic: HB3062

Good afternoon, my name is Vanessa Tellez, and I am a Parkrose High school student taking Activism English. We have been studying about pollution and how it affects our community. We want to take action and fight to have a good healthy community. So I urge you to support HB3062's movement out of the committee, and vote YES when it gets to the floor.

The reason i care about this bill is because

When I heard about the company Prologis building a trucking site at the old K-mart site, I was really concerned on how it will affect the community and Parkrose students. I was in a class called Environmental justice, and we were doing a project to get our voices heard about the trucking site telling about the negative impacts it will cause like health problems, and bad air quality. We also gave ideas on how we can make use of the site that will help and benefit the students. But the trucking site was still built. This is why i support bill # HB3062. This bill will help develop economic goals while protecting sensitive communities. Protecting our health and safety. Vote YES to bill # HB3062, Thank you for listening to my testimony.
