

Submitter: Diane Frank

On Behalf Of:

Committee: Senate Committee On Natural Resources and  
Wildfire

Measure, Appointment or  
Topic: SB427

With each passing year our natural resources are put under more and more pressure ( and the Trump administration will amplify that!) while we continued to ignore the very things we can do in order to protect our precious water. It is imperative that water levels remain high enough to support fish ( salmon!) water quality and maintain recreational opportunities. These streams belong to ALL of us. I urge you to close this gaping loophole and support SB 427. Thank you.
