

Submitter: Richard Roberts

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure, Appointment or Topic: HB3644

This citizen is OPPOSED to growing the Industrial Homeless Industry. The statistics do not support Governmental management of homeless services. The outcomes have been terrible for both the unhoused and the tax payers in the states that use this kind of strategy. Please abandon this strategy and create policy that acts as a force multiplier to the programs that have efficient positive outcomes, such as the union gospel mission and others, who realize compassion and effectiveness for helping people. The state and local governments only end up growing the salaries of government employees, and do little address the problems they claim to be trying to solve when it comes to the homeless situation.

Please vote no in a step forward to addressing the homeless problem in Oregon
