Committee Members,

Sometimes it truly feels like I am reading a practical joke when I look at legislation proposed from within the walls of Oregon's Capital building. HB 2640 is yet another one of those times.

Why do you invite the ridicule of the Nation upon us? And it is as if you want endangerment of the citizenry and especially for those who would protect us. You make us a national embarrassment proposing legislation written with this level of disrespect.

I encourage you to remember and understand that there was a strong voter mandate from the entire Country that occurred recently. Its message was loud and clear for politicians to return to the use of common sense.

No to HB2640 with that in mind.
