

Submitter: Roger Knudson

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3546

We need data centers, cryptocurrency, and other large energy users to pay their fair share. Their demand for energy is creating greater need to invest in our energy grid but the cost is largely going to everyone else. This bill will help state regulators assign these high costs to only those customers who are making them necessary in the first place. I urge you to support the bill.
