Committee: House Committee On Agriculture, Land Use, Natural  
Resources, and Water

Measure, Appointment or Topic: HB3103

Dear Co-Chairs Helm and Owens, and Members of the Committee,

I'm writing to ask you to oppose House Bill 3103, which would lead to more clearcuts and less healthy habitat for fish, wildlife, and humans. I urge this committee to turn its attention to legislation that will increase our forests capacity to store carbon and clean the air and water in these perilous times. We should prioritize the implementation of the State Forest Habitat Conservation Plan and ODF's Climate Change and Carbon Plan, both of which this timber grab would undermine.

Thank you,  
Emily Stebbins
