OAC funding formula reality

Funding fluctuations that make sustainable programming impossible

Average annual county funding loss is **over 26%** up to **52%**

Some counties will be forced to discontinue services

Solution: SB 610

Build a sustainable solution for funding formula adoption.

Propose a temporary funding solution for 2025-29:

1. Ensure Oregonians can access substance use treatment in their community.
2. Minimize significant funding shifts that threaten sustainable and consistent service.
3. Uphold health equity as a goal.

Temporary funding solution: Public Health Modernization (PHM)

Established by Public Health Advisory Board
in 2017

Indicator Variable	Weight
