Measure, Appointment or Topic: HB2152

Please support HB 2152. It is an important companion bill to HB 3450. We know that the CEI hub sitting on an earthquake and liquefaction zone is a catastrophic disaster waiting to happen. This bill would ensure that emergency responders across the state will still have access to critical fuel supplies. Spreading our essential fuel reserves strategically across the state lessens the risk of total disaster at the hub.

Thank You,
