

Submitter: Anthony Tautfest
On Behalf Of: Self
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3362

What next? A tax on toilet paper? The State of Oregon needs to live within it's means, not create new taxes on businesses or residents. The same people who are worried about "tire rubber pollution" are the same people supporting the use of Magnesium Chloride and Salt to use as de-icer on our roadways. Both are toxic chemicals that wash from the roads into our streams and and leach into our soil. The same people who support this "pollution" tax are the same people who condone/protect the homeless population who discard extreme amounts of litter and human excrement into our environment, landscape and cities. Booooo!
