

Submitter: Gary Langlitz

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

Just returned from the Oregon coast. I continue to see the reconstruction of the previously reconstructed crosswalks and ramps in nearly every city we passed through. Do we really need to do this work again every 5-10 years. Leave well enough alone.

NO on any additional taxes of any kind!

PS: Didn't see anybody using the new multimillion dollar bike path along I84 around Cascade Locks??
