Committee: Joint Committee On Transportation  
Measure, Appointment or Topic: HB3362

Oregonians are being taxed to death and spent to death by the legislature. The money is being spent foolishly and unethically. The govt. is responsible for the well being of all Oregonians. Therefore, any money spent for the benefit of a select group is spent irresponsibly. Also, taxes should be assessed on ALL Oregonians fairly. Taxing tires only affects a select group and the distribution of that money should be to something that benefits ALL Oregonians such as maintenance of roads, highways, and bridges over which we all travel or receive goods and services from those who use those travel lanes. If we are going to tax small groups, how about those who now use electric bicycles, motorized skate boards, electric scooters, unicycles, etc. Maybe we should place a 5% tax on all campaign funds spent by a candidate and paid for out of the candidates own pocket. Enough of the irresponsible, unprofessional, and unethical spending and taxing.
