Measure, Appointment or Topic: HB2138

Oregon needs more diverse housing that better matches who are families are today. HB2138 encourages more types of infill housing and housing living styles in urban areas, so I strongly support its passage. Please allow single-room sharing options, middle housing in all its forms. Innovative designs allow more families can find appropriate shelter for themselves and their loved ones, at price points more aligned with what they're renting or buying. Let's become a national leader in nurturing the most diverse kinds of housing for today's families. Please pass this bill.

Thank you
