Management, Federal and World Affairs

Measure, Appointment or Topic: SB667

I submit this testimony for one simple reason . That reason being the obvious need to follow the dictates of our constitution in which there is a clear description of the process that is proscribed for the deployment of our forces into a war zone. In this description congress must be the arbiter in this weighty decision. In recent times this clearly defined and required process has been subverted by the interests of groups and organizations outside of congress for their own particular financial and political advantage.

It is way past time to set the record straight in this matter.

Let the state of Oregon once again lead the way in making crucial decisions that make a better world for all citizens of this country.
