

Submitter: Jill Wyatt

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

Wildlife collisions cost \$114 million per year and elk collisions have cost Oregonians an estimated \$26 million, including loss of life (both ungulate and human).

Eighty-six percent of Oregon voters want the state to build more crossings, and 75% support increased funding to build those crossings.

As an Oregonian, I support this bill.
