

Submitter: Nancy Bray

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB2679

I support HB 2679 to keep harmful pesticides/neonicotinoids away from untrained/unlicensed users and out of retail stores. Passage of this bill will protect our pollinators and keep harmful pesticides out of our waterways. Oregon needs to join the other states that have already passed this important bill.
