Wildfire

Measure, Appointment or  
Topic: SB78

I'm writing in strong support of SB 78 to reform current rules regarding the size of replacement dwellings on farm and forest land. The current rule has been used to allow mansions and estates for the wealthy at the expense of our precious working lands. This is placing more strain on the cost to run these lands. We have to start protecting dwindling farm and forest lands from being used for speculation, homes and estate purposes. They never were intended for that and it is ruining areas.

Please pass SB 77 and SB 78

Thanks for your time
