

Submitter: Deborah Baier

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB3103

Our forests are essential to our survival in an increasingly concrete world. This bill will not help preserve them. Please oppose this bill and work toward sensible and forward-thinking forest management that prioritizes our environment and the creatures (human and other animals) who inhabit our planet rather than the interests of the timber industry.
