Measure, Appointment or Topic: HB3362

Hello,

I oppose this tax as small construction business owner this tax will affect us all. Not only will it increase yet again the cost of upkeep on our equipment but also on personal cars for everybody.

Oregonians are struggling due to fiscal irresponsibility from our elected leaders. And in return you turn to us for more money by taxing and raising fees.

Once again we will have another cost increase to own a vehicle. Sometimes it seems as though it is the desire of our elected official to make life as expensive as possible for Oregonians while the unaccountable spending continues.

Thank you
Stacie
