On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB2679

I help my daughter farm a wide variety of produce near Mosier, OR and am in full support of HB 2679. It is one more vital step toward a sustainable future for our food supply.

The unforeseen problems and known effects and complications from use of pesticides containing neonicotinoids require, at minum, the restrictions of HB 2679. I urge its passage and implementation as soon as possible! - Mike Ballinger, The Dalles, OR.
