Committee:

Joint Committee On Transportation

Measure, Appointment or Topic:

HB3362

I strongly oppose this tax. It will not go to improving roads or helping my car drive safer. More people won't buy tires because they will become unaffordable. This will lead to less safety in adverse driving conditions. It will make cars less fuel efficient, create unsafe driving, and take more away from hard working Oregonians, in order to fund pet projects.

I oppose this bill!
