

Submitter: Michael Brady

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

Oregon has long been admired for its Zero sales tax on goods. Adding a tax on the sale of tires, is the slippery slope to a full sales tax. We are harming the most vulnerable who do to live in city centers with access to public transport. We are among the most taxed States in the nation and it is driving public and businesses out of state.
