I urge you to vote NO on 3362

This tire tax will put an increasing burden on rural farmers & ranchers who are struggling to survive, and who will NEVER see rail transit in rural areas. We already pay taxes on things that the State of Oregon is supposed to use on specific items and yet this government has a way of diverting these funds to whatever special project they feel necessary. If you want funds maybe you should be using the money you are using to fight the federal government seems as there is plenty of funds there. STOP taxing the hard working people for trying to make a living! Vote NO! on this bill
