

Submitter: Theo Dreher

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

The objectives of three components of House Bill 3362 are important steps that can make significant positive differences to the environment. Please do ensure that steps are made to prevent the toxic compound 6PPD-quinone from entering waterways and further harming salmon. I would also like to see funding that improves road safety by providing safe road crossings for wildlife, as well as supporting rail or other transit projects that help to get cars off Oregon's roads.
