

Submitter: John Courtney

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3546

I am in full support of this bill! We need data centers and other large energy users to pay their fair share NOW. Their demand for energy is creating a greater need to invest in our energy grid, BUT the cost is largely being absorbed by and paid by residential utility customers. This needs to STOP now. State regulators need to assign these costs to those who are making the increasing demand on our grid! Thank you for your support on this bill.
