

Submitter: Tim Allen

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

Oregon doesn't have an income problem, it has a spending problem. You can't spend your way out of a bad budget anymore than you can walk your way out of a bad diet. We've reached a point that the average Oregonian has no way to calculate just how much they are paying in State taxes because everything is sprinkled around like this tax would do. If you're going to tax us more be transparent about it and quit using the death of a thousand cuts. Be a leader and be transparent with what you are doing. Say no to HB 3362.
