

Submitter: Gretchen Miller

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural  
Resources, and Water

Measure, Appointment or Topic: HB3587

Please support our rocky coastal habitats and eelgrass places. There is so little left compared to pre-colonization times and it is an extremely important habitat, and nursery for many species.

I know you will receive scientific studies, and I have read some, about the importance of the rocky habitat. I won't repeat it here. Please register my support for HB 3587
