

Submitter: David Hansen

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

The government needs to learn to be thrifty with taxpayer money. Using funds generated from the automotive industry (such as tires, gas, miles driven and related items) should ONLY be used for road repairs, and NOT be diverted to other non-road usage. To do so would only demonstrate a lack of common sense! Please appreciate how the voters feel about the spending habits of an out of control government when it comes to taxation!!!
