As a fully disabled Senior on a fixed income I loose some of my fiscal security daily. This bill will go a good way to protecting some of what I have left. I considered it an absolute outrage that these huge corporations think I and my fellow citizens should foot the bill in any part, for their private expansion and I personally believe invasion of our privacy. We do not need these mega data centers, they are for the exclusive use of mega corporations efforts to enhance their profit margin let them pay their own way. Thank you David R Kay
