

Submitter: Laura Camacho

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3546

Electricity bills have gotten astronomically high over the past few years. I have been paying for my friend's electric bill because even as a full time working single parent, they cannot afford to pay for rent, groceries, and utilities. It is time for these giant tech companies to pay their fair share so regular people aren't getting priced out of survival.
