Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB821

As an Oregonian, raising my two daughters in Oregon, I am deeply concerned that we have so many sexual offenders living in plain site. We have clearly become the "get away with it" haven. Children are vulnerable. Children are in danger. It sickens me to know that we have a level 3 convicted sex offender sitting at our sports games, attending our school events and roaming through our community unchecked. I stand with my neighbors and friends of Happy Valley. This has to change!
