

Submitter: JONATHAN Blacklock
On Behalf Of:
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3362

As a single father of 2 boys this is just another money grab from our State Gov. to steal our livelihoods from us and put more money into bureaucrats pockets and just to do one over on the American people, this has got to stop at all costs, this state gets well more than enough "taxes" we all know its just to steal from the American People, this state just can't budget and I think its time for them to learn how to budget, and if we can get "DODGE" in here I believe we might find out that some of these Bureaucrats in Salem Or. are actually Criminals and need to be locked up behind bars for money laundering and probably even more than we could imagine, Tina and her goons in this state needs to step down and let real adults run this state before they totally destroy this state to the point of no return!!
