

Submitter: Dan Jaffee  
On Behalf Of:  
Committee: Joint Committee On Transportation  
Measure, Appointment or Topic: HB3362

Dear Members of the Joint Committee on Transportation:

I am writing in strong support of HB 3362. Imposing a very modest, 4 percent tax on sales of new tires is a highly reasonable and appropriate measure to fund needed transportation, stormwater treatment, wildlife, and other improvements. Tires sold in the US contain the toxic chemical 6PPD, which is toxic to fish and other aquatic organisms, and needs to be phased out. This very minor additional revenue will go a long way toward addressing some of the many harms these tires generate while they remain on the market.

Please ignore the vocal opposition, and vote yes on HB 3362. Thank you for your attention.

Sincerely,  
Dan Jaffee  
Portland
