

Submitter: Amalia Gladhart

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3546

Data centers use vast amounts of energy, and Oregon families should not be the ones paying the cost. have to shoulder the energy costs of these data centers. HB 3546, the POWER Act, will ensure utility costs can be tracked and then billed appropriately. Grid transmission costs should be paid by the data centers and other large energy users. Protect Oregon households from skyrocketing energy costs and the self-serving interests of for-profit utilities.
