

Submitter: Daryl Creech

On Behalf Of:

Committee: Senate Committee On Labor and Business

Measure, Appointment or Topic: SB916

I am against SB916. I am not against unions in general, but SB 916 makes it too easy for unions to regularly strike and will only extend strikes and hold companies hostage to lost labor. Unemployment insurance should only support those who involuntarily are out of work, not those who choose to walk off the job. Again, I support the right of unions to strike, but everyone else doesn't need to support them while on strike, that is their unions place.
