This is a terrible idea! How would the people pushing this bill feel if THEY were the ones having their building options limited? Due to the inflated Biden-caused economy, more and more young people are unable to find a job that will allow them to even pay rent, let alone try to purchase a house. Young people are either living with or moving back in with their parents due to necessity. The government does not have the right to interfere with the size of dwelling needed to let people in the same family live comfortably in the family home. I am absolutely opposed to SB 78, an appalling overreach of our government!
