

Submitter: Elaine Redner

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB820

Sex offenders are only known to reoffend in certain classifications. We do not know what that is without the classification being done! You are doing our community and the offenders a disservice by removing the requirement and obligation of the system to provide this data. Further, you create a magnet state irresponsible to its citizens and its neighbors. Require classification !
