

Submitter: annie capestany

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3546

Please support the POWER act. I don't want to pay for energy-hogging industries to irresponsibly use power. Everyone should pull their own weight, including corporations. Don't force hard-working families to carry the load for the energy hogs. Plus, we don't even need all those data centers. (AI is a waste of money and energy.) Let's encourage energy frugality by making big tech pay the true cost of their extravagance. We will never rein in climate change if we keep using more and more power. Vote YES on the POWER act.
