Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB821

I am very against this measure We should be getting tougher on crime not Supporting Criminals esp Sex offenders that is risking other people and Children this is Obsurd. Governor Kotex is Ruining this State and going against the people let us Vote on this. the Super majority does not work and just pushing bills through is against the Constitution and Democracy. Give the people their voice back. Many did not want oregon to be a sactuary State Let us vote on it, Why would anyone want to have more sex offenders in our State and let the ones here not be on registry Its nuts. We the people are tired of the crime, Tired of the lack of laws and lack of consequenses, We are tired of bills being passed with out our voice being heard. Our State is suffering because of all the wrong this administration is doing against the people, Residents of this State. Being a sanctuary for sex offenders is just ridiculous and should Never even be considered. A Governor Thats Putting others at risk is not a good Governor. That is so against the people and should be considered Illegal, against the Constitution against democracy and against Humanity. Sounds Like domestic terrorism against the people of this State which is Treason. Protecting criminals over the the residents is a terrible idea that should never be considered.
