SB820

I represent 20 people who strongly oppose this bill. If the governor feels a strong need to add employees to the State, we recommend you amend this bill to ADD staff to catch up on the backlog of classifying the sex offenders, as opposed to either not classifying their risk or downgrading their risk of reoffending. The rate of sex offenders is continuing to rise as our state culture continues to encourage pornography/perversion, but the taxpayers/citizens of Oregon will continue to say NO on all fronts.
