

Submitter: Larry Holtry
On Behalf Of:
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3362

I am opposed to this REGRESSIVE tax and expect your support. An option would be to add a tax on electric vehicles that would be collected when electric vehicles are originally registered - could be a flat fee at the time of original registration - and an additional fee based on miles driven when reregistered every two years because they do not pay a fuel tax. A fee on hybrid vehicles should also be considered. Thank you for your consideration of the opinion of this 50 year resident of Oregon.
