

Submitter: Dana Weintraub

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3546

Dear Lawmakers:

Here are my takeaways for supporting HB 3546

Protecting Oregonians' Energy Bills: Oregon families and small businesses are already struggling due to rising utility bills each month. We should not be subsidizing the energy costs of data centers. That is plain wrong.

Holding Data Centers Accountable: Data centers have grown exponentially over the last decade and added a lot of costs to our energy grid. They need to pay their fair share.

A Stronger Energy Grid for Everyone: We have seen other states struggle to meet energy needs as data centers have boomed. Oregon needs to protect our energy systems as well as affordability.

Thank you for your consideration regarding this matter to preserve Oregon's unique way of life.

Dana Weintraub, Beaverton, OR
