Measure, Appointment or Topic: SB78

I oppose Senate bill 78!! People have the right to build whatever size home they want and can afford. Just because a young couple starting out starts with a small home does not mean that when their family is considerably larger (6+ children) that should have to stay in the same size home if their home, if rebuilding or for any reason, including natural disasters and/or wild fires. Smaller homes are wonderful for a significant number of people, but not all people could survive being couped up in a small home! Some people need additional space for their hobbies, their extended and/or blended families, their work and other personal reasons.

The government should have NO say about where people live or the size of their home!! It is a personal choice, not a government choice. I consider this a direct attack on people's rights to life, liberty and the pursuit of happiness! Oregonians deserve the freedom to rebuild their homes without unnecessary restrictions that infringe on their property rights.

I request this measure be voted down!
