

Submitter: Brandon Hill
On Behalf Of: Children and families
Committee: Senate Committee On Judiciary
Measure, Appointment or Topic: SB821

Dear Oregon Senators. I am writing you all today in regards to SB 821. I say this for not only my own child, but children and families across the state of Oregon, that sexual related crimes have some of the most adverse effects on people and their communities. I strongly oppose SB 821 and I urge Oregon senators to consider stronger, timely, and more consistent labeling and tracking of sex offenders in our state. As a mental health worker and the family member of people who have endured sex offense crimes, I have seen many children, adults, and families whose lives are changed forever as the result of sex offense crimes. Please protect our children and families. We already have so many health crises. Let's take a step in fixing that.
Thank you

Sincerely,

Brandon Hill
