

Submitter: Kathryn Rose
On Behalf Of: Velouria Spry
Committee: House Committee On Education
Measure, Appointment or Topic: HB3444

My family supports HB 3444 because increasing the funds the school currently receives would greatly help the school and provide more opportunity for the children. LOGOS has been life changing for my daughter. She loves the diverse learning style and really enjoys the flexibility to choose campus classes or online classes. Campus classes mixed with online learning and extracurricular activities are what help LOGOS really stand out. My daughter really loves the music programs, she plays guitar, sings in the choir and participates in the school plays. I feel that with more funding the school could offer more than they do now. LOGOS should be treated the same as public schools and the funding should be the same. They are teaching the future of America and should be given every opportunity to allow the children to thrive.
