

Submitter: Anna Thompson
On Behalf Of: Logos Public Charter School
Committee: House Committee On Education
Measure, Appointment or Topic: HB3444

Thank you so much for considering this measure to increase the amount of funding made available to public charter schools. I myself am a teacher at Logos Public Charter School in Medford, Oregon, which is chartered through the Medford School District. Families choose Logos because of its flexible, hybrid learning options that are catered to each student's needs and interests. Every day at Logos, I get to see the positive impact that school choice has on students and families. And every day, I get to see the hard work that school staff and administration put into making sure that every student has the opportunity to meet their full academic potential. This includes making decisions around funding and budgets to try to maximize the resources that we have to make the biggest impact for students. It makes me excited to think about all the opportunity that Logos would have to do more for more students and families as a result of increased funding. Again, thank you so much for your consideration of this important measure.
