My mother a drug addict that abandoned us - three of my siblings went to their dad and my sister and I went to ours. my biological father got custody of us. He was married to a woman with two girls. He would sneak in my room and do things to me. When they got a divorce he stopped sneaking in my room and started calling me and my sister into his room one by one... he got three months in jail. He started over raising another woman's 4 kids while my sister and I spent our whole lives trying to recover. My sister looks like my dad and so do her kids... my father is well liked and his parents - stood behind their son no matter what. WE went to foster care . My sister isn't as strong as I am , drug addict and alcoholic. it's harder because we see him when we look in the mirror. Her more...THESE PEOPLE- THAT RUIN LIVES - THEY NEED TO BE JUDGED accordingly and they need TO HAVE IT follow them the REST of their LIVES as IT FOLLOWS OURS !
