

Submitter:

Loretta Johnson

On Behalf Of:

Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB820

This is bad legislation and should not pass. Studies show the likelihood of a first time sex offender reoffending is almost for certain and passing this bill would make that more likely to happen. Whether you are the second victim or the one hundredth you are still a victim and the damage is no less. Please protect us and vote no.
