I grew up on a farm in the 1960's and 70's. We were very poor but it was a great life. My dad barely made a living then. I can't imagine farmers today. The rules are so over bearing and creates cost the farmers cannot pass on that other states do not require. Please save our farms and do not add rules and legislation that they cannot afford to carry out. I was a product of the timber stoppage in 1984. Please do NOT do that to our family farms. We need their revenue for schools and other important services. Thank you.
