I really don't understand Section 5: Uniform Training Standards. What are they training for? I think most agricultural workers are trained 'on the job'. Even if they are going to use hazardous chemicals I think that is covered under OROSHA rules. Wage & compensation buy Labor & Industries. I don't see the purpose of this Board. But I must say the 'Board members' are evenly divided between workers and farmers. I don't think any of them would have time to serve the cause unless they had other intentions.

Just more unnecessary bureaucracy?
